Fabien Kovacic

Javascript Developer

29 rue du duc de guise, 62100, Calais, Pas-de-Calais FR

✉ Fabious[at]free.fr   ☐ 06 78 07 15 84

With a deep-rooted passion for computers, I embarked on my career as a Front-end Developer, working with HTML, CSS, JavaScript, and ActionScript 3. I later honed my design skills using the Adobe Suite. In recent years, I have dedicated myself exclusively to coding, acquiring substantial experience in both front-end and back-end technologies. I am particularly enthusiastic about the JavaScript ecosystem, focusing on TypeScript, React, and Node.js, which allows me to create seamless and efficient web applications.

SKILLS

Frontend

Javascript / Typescript | React / Next.js | HTML / JSX |
CSS / Tailwind / CSS Modules / BEM / Styled Con
Tanstack Query / Redux / Tiptap

Backend

NodeJS | PHP | Python | Ruby

Design

Photoshop | Sketch | Figma

Tools

Neovim | VSCode |
OSX, Linux, Windows

Devops

Docker | Kubernetes | CI/CD

WORK EXPERIENCE

Sep 2022 - Current

Lead Front-end Developer at France Télévisions

Joined France Télévisions to provide strong front-end expertise, manage the front-end team, and drive the adoption of best practices. The technology stack includes React, TypeScript, and Next.js. My leadership has been well-received, and I have played a key role in recruiting and training new front-end developers.

- Led and mentored a front-end team, enhancing performance and code quality
- Expertly utilized React, TypeScript, and Next.js to build scalable applications
- Conducted interviews and successfully recruited skilled front-end developers
- Developed a sophisticated rich text editor using Tiptap

Jul 2018 - Current

Front-end Developer at Les Tilleuls

At Les Tilleuls, a self-managed and egalitarian company (Scop), I undertake diverse client projects, primarily focusing on front-end development with JavaScript. I also handle back-end tasks using NodeJS. My role includes leading small teams as a coach and technical advisor.

- Expertise in React and TypeScript, system design and architecture
- Implementation of GraphQL (Apollo) and Express (NodeJS) solutions

Oct 2016 - Mar 2017

Fullstack Developer at CPAM de Calais

Led efforts to enhance the intranet for the Calais social security office, focusing on performance and user experience.

- Refactored and fixed bugs in the existing PHP codebase
- Optimized server performance, resulting in faster load times

Nov 2013 - Feb 2014

Prestashop Developer at Gotek7

Executed a short-term project to establish the company's online store, from design to integration.

- Designed visual assets in Photoshop and conducted product photography
- Integrated designs into a functional Prestashop e-commerce platform

Jan 2012 - Jul 2013

Web Designer at Reference Hit

Worked in a startup environment where flexibility was key. Primarily focused on web design, with additional responsibilities in site integration and development using Prestashop.

- Created web designs using Adobe Photoshop and Illustrator
- Integrated and developed websites using Prestashop

May 2011 - Nov 2011
Database Assistant at Calais City Hall

Assisted in designing a comprehensive database to catalog all addresses in Calais.

- Designed the database using the Merise method
- Developed user interfaces with Access and VBA
- Gained proficiency in Geographic Information Systems (GIS)

Jul 2008 - Mar 2010
Front-end Junior Developer at Naxeo

Completed a work-study program followed by a permanent position, working with a variety of high-profile clients.

- Integrated numerous websites using HTML, CSS, and JavaScript
- Developed Flash animations with ActionScript (AS3)
- Created interactive modules with jQuery
